I am a Full Stack Web Developer with 2+ years of professional experience. I am capable of writing production ready code using ReactJS and Redux on the frontend and NodeJS with PostgreSQL on the backend to build robust applications.

SKILLS AND FRAMEWORKS

HTML | CSS | Advanced JS (ES6) | ReactJS | Redux | NodeJS | Express | PostgreSQL | Docker | Figma | Data Structures and Algorithm

SOFT SKILLS

Effective Communication | Adaptability | Team Collaboration | Leadership

EXPERTISE

Responsive Web Design	85%
Database Management	80%
Problem Solving	80%

WORK EXPERIENCE

VAYANA NETWORKS

Junior Software Engineer | Apr 2022 - Present
Tech Stack and Tools:
React | Redux | NestJS | TypeORM | PostgreSQL | AWS | Wagmi | Docker

Areas of responsibility:
- Designed and developed reusable React components with a focus on responsiveness and performance.
- Crafting APIs and implementing business logic, including complex query construction.
- Integrated contract invocation using WAGMI hooks to ensure seamless blockchain interactions.
- Added event listeners and maintained various microservices to ensure robust application functionality.

PROJECT

MAKE MY TRIP - CLONE
Features:
Flight and Hotel pages with multiple features | User Authentication
Tech Stack:
React | Redux | Express | MongoDB
Areas of responsibility:
- Flight and hotel pages with query filtering
- Flight and Hotel booking process
- Integrated redux in the project

EDUCATION

Full Stack Web Development
MASAI SCHOOL | 2021-2022
Bangalore

Masters of Psychology
SNDT UNIVERSITY | 2020-2022
Pune | Final Grade: A+
